

How to order

By following these instructions, you'll be guaranteed to have a beautiful and functional deck and stairs in no time.

1 Choose your color.

2 Choose your installed height of your railing.

(Check with your local building code for specific requirements)

3 Do you need Posts?

(Base covers sold separately)

4 Choose your post height.

- 38" posts for 36" railing level railing
- 44" posts for 42" railing level railing
- 44" post for 36" stairs run
- 50" post for 42" Stair run

38" Post EZPRX-W
44" Post EZPCX-W
50" Post EZP50X-W

5 Figure your post count.

8 feet max.
between posts
(Check with your local building code for specific requirements)

6 Would you like base covers to cover the post fasteners and create a finished look?

7 Do you need 6' or 8' railing sections?

EZ6RX (Check with your local building code or specific requirements.) EZ6CX
EZ8RX EZ8CX

8 Are you cutting a 6' or 8' railing section down to create multiple smaller sections?

You will need to order 1 additional level bracket kit per smaller section.

EZTBM2X

9 Do you have stairs?

- Use taller posts for stairs and longer railing sections to cover the slope.
- You will need 1 straight railing kit and 1 pivot bracket kit per stair section.

EZPMX

10 Do you need a gate?

Our gates are 36" wide. We offer both heights 36" & 42" installed height. Compatible with self-closing hinges and latches, sold separately.

Rough opening should be 1" greater than gate.

36" Installed Height EZGRX
42" Installed Height EZGCX
